

Lighting

Spectrum Amerlite® (SAm®)
Spectrum AquaLight® (SAL®)

Pentair...for the absolute ultimate in pool and spa lighting

Combine the dramatic effects of your SAm®/SAL® light show with our many other exciting options to turn your backyard into an inviting after-dark retreat. Let FIBERworks™, a dazzling fiber optics lighting system, illuminate the pathways to your aquatic paradise. Features such as our advanced OptiFusion™ with its superior light transmission and the compact Photon Generator for brighter, long-lasting lighting will provide the perfect nighttime environment.

Investigate the possibilities with your Pool Professional. They're ready to help you design your very own wonderland.

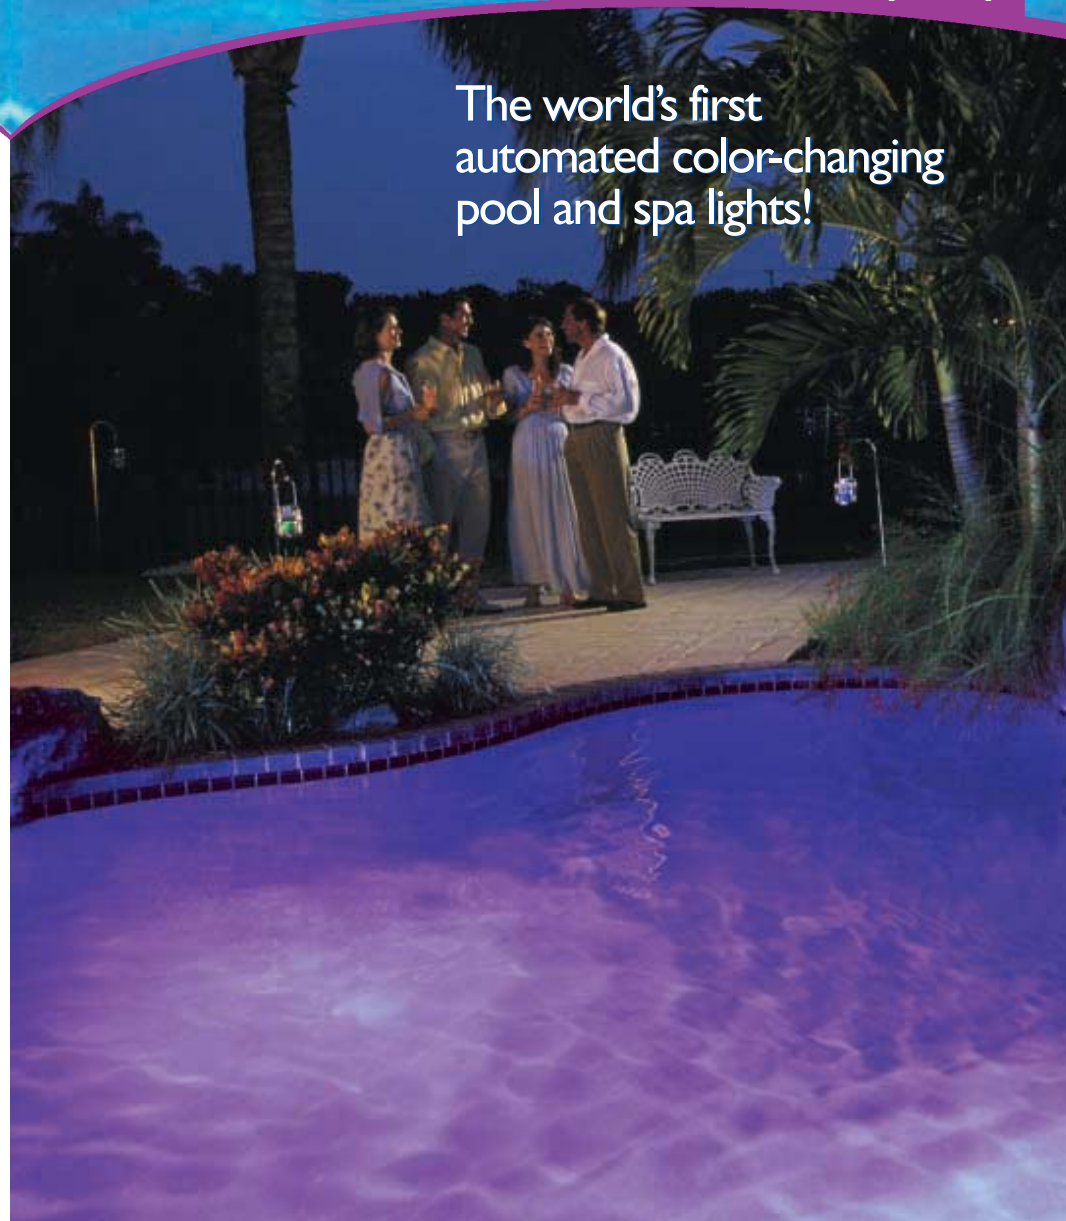

Ask your Pool Professional about Pentair's comfort and convenience options to add a whole new dimension to your pool living:

- ✦ automatic sanitizers
- ✦ automated controls
- ✦ heaters/heat pumps
- ✦ automatic cleaners
- ✦ automated color lighting

Because *reliability* matters most

Spectrum Amerlite® (SAm®)

Automated Pool Lighting

Create an after-dark wonderland in your own backyard with the revolutionary SAm

SAm, the world's first automated color-changing pool light, produces brilliant underwater color lighting effects that transform any pool into a luminous nighttime wonder. Featuring two bright white halogen quartz bulbs mounted behind a revolving color wheel, SAm can bathe your pool in any one of several captivating colors. Or, it can slowly roll through its color spectrum, creating a continuously changing underwater light show. With SAm, your pool's beauty will shine brightly even when the sun goes down. You can even synchronize SAm lights with SAL and FIBERworks™ PG2000™ to provide spectacular backyard color.

Standard features include:

- Exclusive spectrum color roll for a dazzling light show right in your own pool.
- Select a single color to suit your mood or backyard decor.
- Bathes your pool in vibrant color at the touch of a single switch.
- Fits all full size Pentair/PacFab/American/Purex niches.
- Produces white light comparable to that of 300-watt Amerlite.
- 4,000 hour halogen bulb life minimizes relamping frequency.
- Same 3-wire installation as standard pool light.
- One-year limited warranty.

Spectrum AquaLight® (SAL®)

Automated Spa Lighting

Automated color in a compact package

Now you can enjoy the dramatic color lighting effects of SAm in your spa. Spectrum AquaLight (SAL) produces the same revolutionary 7-color spectrum as our SAm light, but it comes in a compact package. Especially designed for spas—just like SAm. Imagine relaxing with your family and friends in a spa where you can create a beautiful, continuously changing light show. And if you have a pool/spa combination, you'll be glad to know that SAL easily synchronizes with SAm to provide a uniform display of ever-changing aquatic color.

Standard features include:

- Produces same dramatic color mix as SAm light.
- Synchronizes with SAm and FIBERworks™ PG2000™.
- Dual remote from existing light switch.
- SAL's white light is comparable to 70-watt SpaBrite light.
- 4,000-hour lamp life reduces relamping frequency.
- Fits all SpaBrite™ and AquaLight™ niches.
- Simple 3-wire connection for quick professional installation.
- 12-volt and 120-volt models available.
- One-year limited warranty.
