

Ladders
and Rails

SUPERIOR

PARTNER WITH THE LEADER

For over 70 years, S.R. Smith has created superior deck equipment for swimming pools. We create strong, high-quality rails and ladders that have proven to meet the needs of any commercial pool facility. We offer dozens of ladders and rails in standard configurations and we can create any custom rail you need—even powder-coated in colors to match facility décor! S.R. Smith has the ladders and rails you need.

SUPERIOR

For over 70 years we have been making ladders and rails that continue to stand the test of time. We know every facility has different needs so we offer rails and ladders in a variety of sizes and wall thickness—choose .065", .109" or .145"—we give you the superior quality you expect.

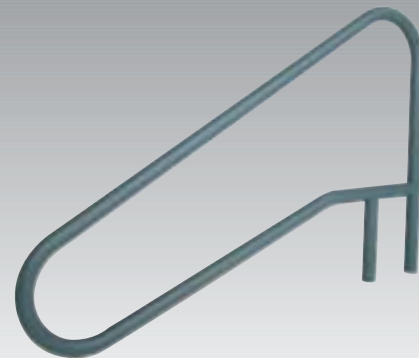

SAFE

All of our ladders and rails were designed with safety in mind. From ladder treads made of tough Cicolac with a slip-resistant design to safety steps with side skirts that protect against entrapment, our features encourage safety in every area of your aquatic facility

SMOOTH

Our ladders and rails feel different because they are different. Our high quality type 304 and marine grade stainless steel is bent, welded and polished using the latest technological advances to give all of our ladders and rails a super-smooth, mirror finish that will leave a lasting impression with your pool users.

SPECIAL

S.R. Smith specializes in custom rails and ladders. You tell us what you need and we make it. Our trained engineers help you create the rails needed to make your facility safe and compliant. We provide the drawings, pricing and product you need in a timely manner you can count on. We can even powder-coat in colors to match your facility décor and keep your rails looking good longer—with less maintenance!
