

SOLAR BLANKET

FIVE-YEAR LIMITED WARRANTY, TWO-YEAR FULL

The manufacturer warrants to the original purchaser of the SOLAR BLANKET that the company, at its option, **WILL REPAIR FREE OF CHARGE OR REPLACE** any Solar Blanket THAT PROVES TO BE DEFECTIVE EITHER IN WORKMANSHIP OR MATERIAL in the first two years of warranty period. After the initial two-year period, upon prepaid return of the cover by the owner, the warranty department will, at its option, either repair the cover at a nominal charge or replace with a new cover as per the prorated provisions shown below. All repaired or replaced covers **WILL BE RETURNED AT THE HOMEOWNERS EXPENSE**. The prorata basis for cover replacement is as follows:

WARNING!

AVOID DROWNING RISK

- STAY OFF COVER -- WILL NOT SUPPORT WEIGHT
- KEEP CHILDREN AWAY. CHILDREN OR OBJECTS CANNOT BE SEEN UNDER COVER
- CHILD CAN DROWN ON TOP OF COVER
- REMOVE COVER(S) COMPLETELY BEFORE ENTRY OF BATHERS - ENTRAPMENT POSSIBLE
- FAILURE TO FOLLOW ALL INSTRUCTIONS MAY RESULT IN INJURY OR DROWNING
- THIS IS NOT A SAFETY COVER

FIVE-YEAR WARRANTY WITH TWO-YEAR FULL

Five-year limited warranty from date of purchase with two-year full. The claimant shall pay the list price at the date of claim less one sixtieth (1/60) of the price for each full month remaining in the warranty period.

TO FILE A CLAIM

1. Please call 800-448-2343 between the hours of 8:30am - 5:00pm standard time Monday - Friday.
2. You will receive a warranty questionnaire in the mail. The questionnaire will need to be filled out and returned to the manufacturer along with proof of purchase and a 6" X 6" section of defective cover.
3. Please allow 4 - 6 weeks for warranty claims to be settled.
4. The manufacturer will not be responsible for lost mail.

Although any warranties implied are limited to the stated period after the date sold to the original purchaser, some states and/or provinces do not allow limitations on the length of time of an implied warranty. Therefore, the above may not apply in such states/provinces. Any claimant under this warranty has specific legal rights and the provisions in the warranty are neither a modification nor subtraction, but rather, an addition to the statutory warranties and other rights and remedies contained in the applicable state or provincial legislation. Manufacturer will not be liable for any incidental or consequential damages resulting from any defects in workmanship or material. Some states and or provinces do not allow the exclusion or limitation of incidental or consequential damages, therefore the foregoing limitation or exclusion may not apply. This warranty gives the original consumer purchaser specific legal rights. In the event of a problem with warranty service or performance, you may be able to go to a small claims court, a state court or a federated district court. The solar blanket is manufactured to rigid quality specifications and will withstand normal wear and tear. The blanket should not be subjected to conditions that can damage, cut or tear the blanket. PLEASE NOTE: Delamination caused by improper storage or exposure to the sun of the solar blanket DO NOT constitute a defect and therefore are NOT covered by the warranty.

**All warranty claims must be handled directly with the manufacturer.
Do not return blanket to your dealer.**

OWNER'S INSTRUCTIONS/SOLAR BLANKET

SOLAR BLANKET PERFORMANCE

- ❑ The Solar Blanket heats by day and insulates at night. For optimum performance, leave the blanket on the pool when **NOT** in use for swimming, as the translucent blanket allows the sun's rays to pass through the blanket to heat the pool water during the day while the plastic bubble construction acts as an insulator to minimize heat loss at night.
- ❑ During the swimming season, the Solar Blanket will raise your pool water temperature by 10 degrees F or more. Actual customer experience indicates the pool will be 10-15 degrees warmer during the season than a pool without the blanket.
- ❑ Besides warmer water, energy savings and an extended swimming season, the use of your blanket will result in a cleaner pool, reduced chemical usage and water conservation.

SOLAR BLANKET INSTALLATION

- ❑ Install the blanket on the pool with the BUBBLES DOWN.
- ❑ Before cutting, the blanket should be left on the pool for a few days to smooth the packaging folds and allow for blanket shrinkage or expansion in the sun. This is normal. If the blanket needs to be trimmed, use ordinary scissors, being careful to avoid damage to the lining of the pool.
- ❑ The blanket should fit close to the pool sidewall. To avoid cutting your blanket too small, cut slightly larger on the first cutting, then wait a day or two for the final trimming.
- ❑ The blanket should not overlap the pool sidewall as this could allow an opening for wind to blow under the blanket. Properly fitted to the pool, the blanket is held in place by surface adhesion, thereby requiring no tie-downs during windy periods and heavy rains.
- ❑ Do not cut your blanket to size on your lawn as the sun's rays will radiate through the plastic bubble sheet and burn your grass.

WARNING: To avoid the risk of drowning, the blanket must be totally removed before using the pool. DO NOT enter or swim in your pool when the blanket has only been partially removed. DO NOT swim under the blanket or climb on top of the blanket.

SOLAR BLANKET HANDLING

By using the "fanfold" technique, two people can easily take the blanket on and off the pool. To fanfold, simply pull three or four feet at a time over one end of the pool and continuously fanfold the blanket "accordion-fashion" until the entire blanket is stacked on the deck. **THE BLANKET MUST THEN BE COVERED WITH THE PROTECTIVE COVER.**

- ❑ The **AQUACOVER® Reel System** is recommended for most pools and/or where only one person will be handling the blanket on and off the pool. **WHEN ON A REEL SYSTEM, THE BLANKET MUST BE COVERED WITH THE PROTECTIVE COVER.**
- ❑ To avoid damage to the blanket, do not drag it across a rough deck, coping or sharp edge of the pool.

SOLAR BLANKET PROTECTION

- ❑ Every Solar Blanket is shipped complete with a PROTECTIVE COVER. Once the blanket is off the pool, it must either be placed in the shade or covered with the protective cover to prevent material deterioration and/or bubble delamination (ie. blistering by the sun). When your blanket is fanfolded off the pool or rolled onto a reel system, the multiple layers of plastic bubble material exposed to the sun will create a tremendous heat build-up, resulting in extensive damage to the blanket.
- ❑ Your blanket should not be stored in an area where temperatures might reach 120 degrees F.
- ❑ When your pool water temperature reaches 90 degrees F., the blanket should be removed to prolong its life.

BLANKET DEFECTS CAUSED BY EXPOSING THE BLANKET TO THE SUN OR EXCESSIVE HEAT WHILE OFF THE POOL (AS DISCUSSED ABOVE) ARE NOT COVERED BY THE WARRANTY

- ❑ The level of chlorine should be monitored to make sure it does not rise about 3 parts per million (PPM). If you must raise the chlorine level to more than 3 PPM, then remove your blanket from the pool to extend the useful life of the blanket. Damage caused by excessive chlorine exposure is excluded from this warranty.
- ❑ To prolong the life of your solar blanket, it should be removed from the pool during the winter months and replaced by a winter cover to keep your pool clean.

SOLAR BLANKET CLEANING

- ❑ A clean solar blanket is more efficient than a dirty one and will allow more of the sun's rays to pass through the blanket to heat your pool water. Use water and a soft brush to clean your blanket.
- ❑ To keep your pool cleaner, hose off the dirt and leaves from the floating blanket directly into the pool skimmer.

SOLAR BLANKET STORAGE

- ❑ Clean your blanket and allow it to dry thoroughly to prevent mildew. Fold it on the seams and roll it from one end. Place the blanket in a clean, dry, rodent-free area where temperatures will **NOT** reach 120 degrees F.

SOLAR BLANKET WARRANTY REPLACEMENT

- ❑ Exposure to the sun, water and pool chemicals during normal usage will eventually destroy the utility of a solar blanket. When bubble disintegration, flaking or peeling occurs, remove the blanket from the pool.
- ❑ If your solar blanket is within the warranty period, follow the procedure indicated on the front of this card.
